

It is unfair for Sinclair to air a one-sided documentary against Senator Kerry and shows how big media is suffocating journalism and democracy. Citizens should be allowed to choose what is programmed on television and not forced to only view half of a story without being given the opportunity to view the other half. Sinclair's obvious partisanship is undemocratic, shows no journalistic integrity, and is unfair to viewers everywhere. Please do not allow big media to show programs that only suit their own political agenda.

Thank you.
